Hi Carrie,

As I mentioned briefly on the bureau FOIA officers meeting call this morning I wanted to follow up with you. Did your counterparts in ES ever give you a time frame for when the SME would complete the review? If not we'd greatly appreciate if you could find out for me and Cindy.

Thanks,

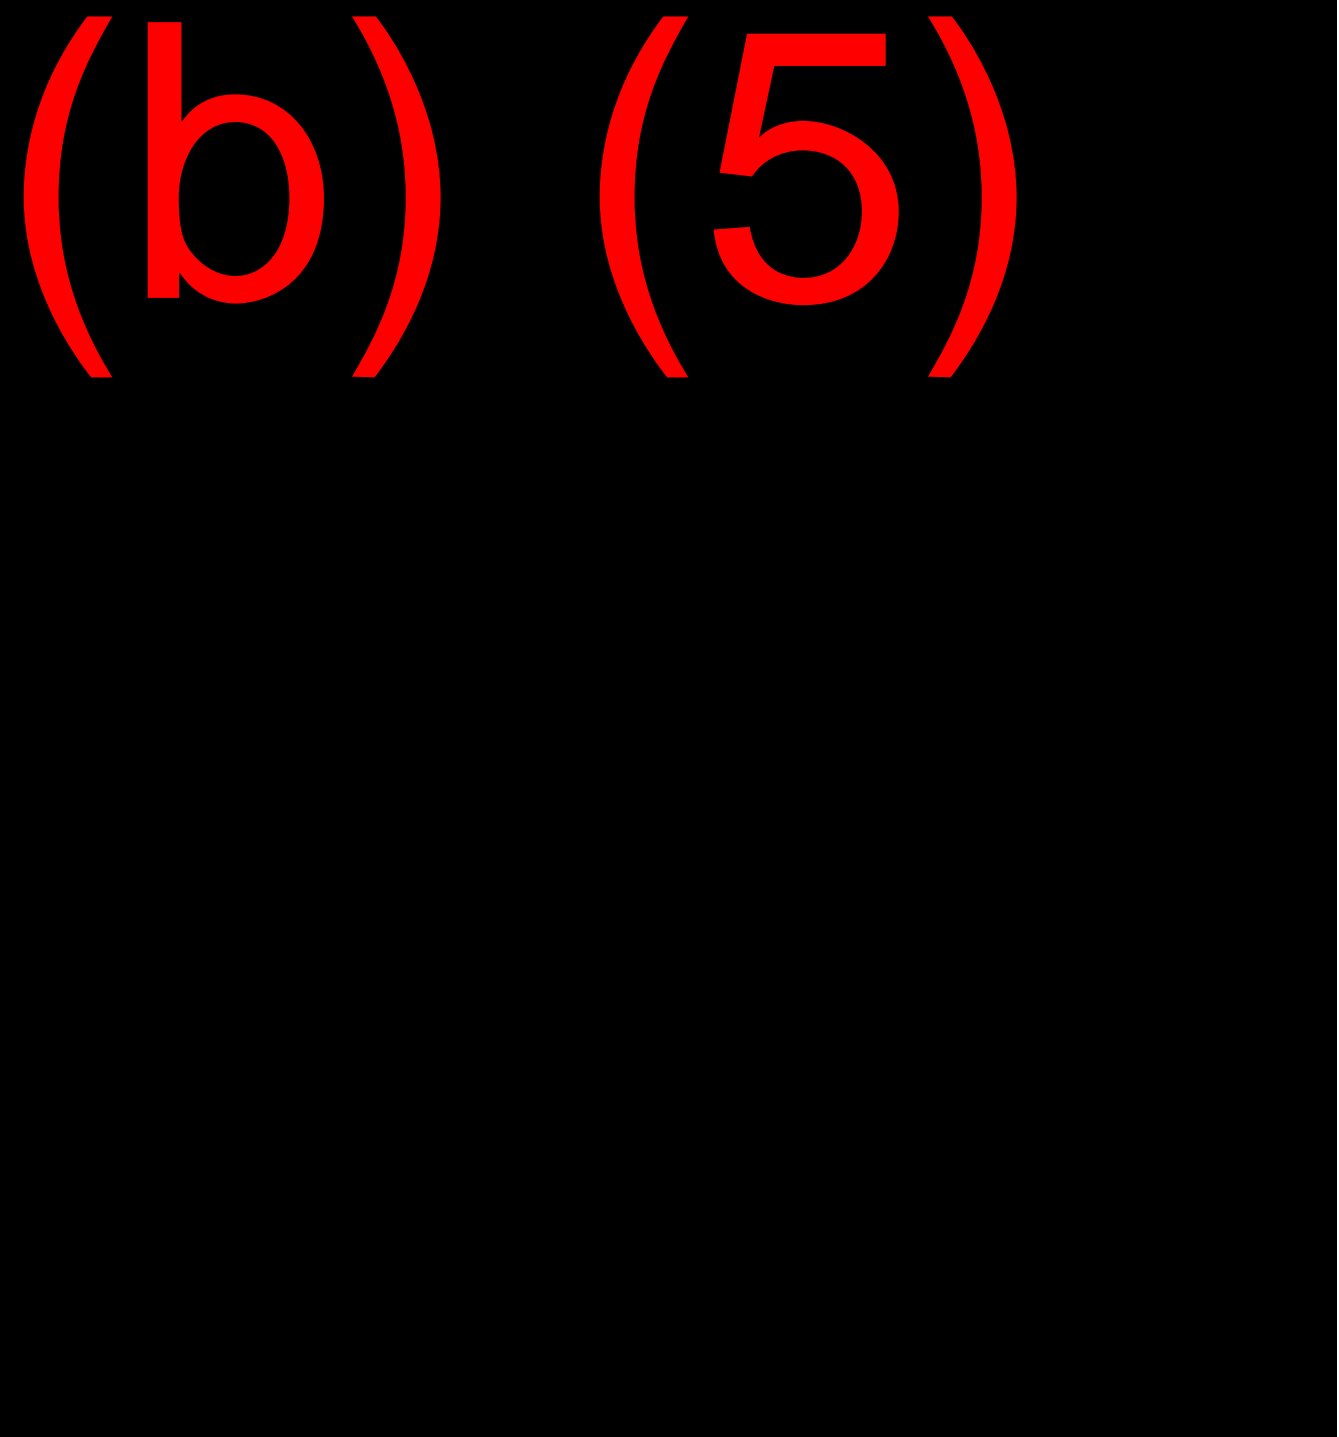

Justin

Regarding having you complete an initial review of the redactions, Ecological Services (ES) indicated that they are in the relevancy check stage of review and they do not believe that anyone but the SME would be able to complete that review accurately.

Hi Carrie

As you may be aware, I serve as a resource for bureau FOIA officers when it comes to the annual closure of the tend oldest DOI FOIA request. So I wanted to reach out to you about this FWS 2014 01122 since it's on the Department's 10 oldest list. Is there a time today that works for us to speak on the phone about this request?

Thanks,

Justin
